Who Is Archteco?

We are a Kenyan Incorporated company and locally owned. The company offers Architectural Services, Engineering and Construction Project management.

We are dedicated to organizations or individuals seeking engineering and construction services.

We provide our services

to companies, parastatals, institutions, public works agencies, national government, county governments, and commercial/residential real estate developers.

Our area of expertise includes but not limited to building technology, civil and structural engineering.

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

We Commit to Promote Quality Delivery

Our Vision

Our Vision is to be regional leader in provision of architectural, civil engineering and building construction services

Mission

At Archteco Designers. We aim to be a world class architectural and engineering company that provides efficient, affordable,, sustainable, cost effective services of highest level of quality.

Core Values

We commit to maintaining the highest standard of Professionalism, integrity, creativity and positive attitude.

Architectural Designs

We have been undertaking architectural designs for for the past five years in Kenya. We design corporate workplaces, houses, complexes, apartments, hotels, shopping complexes, colonies, schools and even industrial complexes.

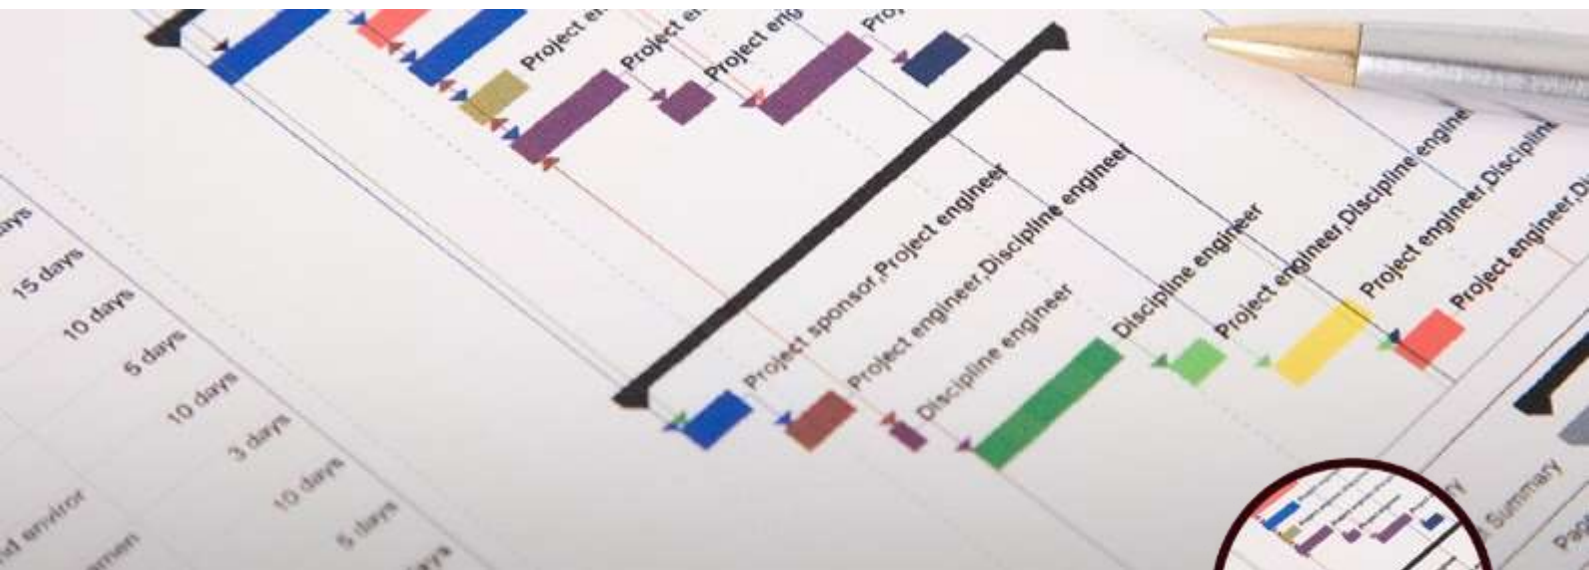

Civil Engineering Structures and Roads Construction

We offer a wide range of civil and structural engineering construction ranging from steel structures erections, rein forced concrete structures and road construction in gravel, paving blocks, concrete, bitumen roads and associated drainage structures.

Building Construction

We also pride ourselves of vast experience in the building industry where we have constructed both high-rise and low-rise residential buildings, commercial buildings, churches and institutions

Construction Project Management

We offer a wide range of project management services which include but not limited to construction project planning & management, contract management, construction project supervisions and site inspections.

Why Us?

We work with top of the range equipment and machinery, including *Earth movers and Transport Equipment, Reinforced Concrete Equipment, and Light weight Machinery*
